

John Niemelä's 2024 Bible-Reading Schedule

Most Bible-reading schedules are based solely upon reading 23 (twenty-three) chapters per week, regardless of the number of words or verses in each chapter. I used Excel and my Bible software to discover how many words are in each of the 1,189 chapters of the Bible. Reading 2,109 words per day allows finishing the Bible in one year. The list shows the day's reading and lists the number of words for that day. Next year, I will improve on daily consistency.
